TAFT AND TEDDY FELLOW WORKERS

President's Letter of Explanation Pleases Colonel Roosevelt.

CLOSED THE POLITICAL BREACH

Attitude on New York State Chairmanship—Executive Emphasized No Desire to Read Any One Out of Republican Party.

New York, Aug. 22.—President Taft and ex-President Roosevelt are again fellow workers in the same political field. The threat .that they might pull apart has been forefended by a full explanation on one side and an unreserved acceptance on the other.

The President makes it plain in a letter given out here today by Lloyd C. Griscom, president of the New York Republican county committee, how the misunderstanding arose. He explains that he never took any part in a committee cabal to defeat Colonel Roosevelt for temporary chairman of the coming Republican State convention. On the contrary, he explicitly deplores the result of the committee meeting which chose Vice President Sherman, and he rebukes the party leaders who have permitted it to go abroad uncontradicted that the President of the United States was behind their factional preferences; he insists that at every opportunity he advised the fullest conference with Col. Roosevelt and he explains that he was pained by the "columns of unfounded assertions in the newspapers concerning my attitude in respect to the New York situation."

For his part, Col. Roosevelt, when he read President Taft's letter as communicated to him at Oyster Bay, said:

"I am very glad to see President Taft's letter and am pleased with it."

Col. Roosevelt, in his statement, given out at Oyster Bay, explains what had been the course of his negotiations with the organization, and how, after his successive rebuffs, he had felt that further overtures could not consistently come from him. His future attitude he does not define, because he is as yet uncertain what effect on the public sentiment President Taft's letter will have when it has been read and digested by the voters of the State.

The following letter from President Taft to Lloyd C. Griscom, president of the New York Republican County Committee, was given out here today by Mr. Griscom:

"Beverly, Mass., Aug. 20, 1910.

"My Dear Mr. Giscom:—As you know from your telephone conversations with my officer, I have steadily refused to admit the propriety or necessity of the President's replying to newspaper statements which are not based on any act or authorized word of his and have no sponsor. I am entirely willing, however, to reply categorically to your telegram of August 19th, which has just arrived and which is as follows:

"'I am informed and believe that several members of the Republican State Committee, who voted for Vice President Sherman over ex-President Roosevelt as nominee for temporary chairman of State convention were influenced by statements that the Vice President's name was presented to defeat Col. Roosevelt in accordance with your wish. A member of the State Committee declared to me before the meeting that Mr. Sherman's candidacy had been arranged with you by telephone the previous day. Efforts have been made to create an impression that you favor a particular candidate for election as State chairman. I want you to know that the injection of the name of a high member of your administration into a factional conflict has produced a most complicated situation, and the absence of any authoritative information as to your attitude is seriously misleading many Republicans and impairing a movement for progressive party leadership and clean government in this State. I know you desire us to have a fair field and hope that this may be made clear to the public.'

"The suggestion that I have ever expressed a wish to defeat Mr. Roosevelt for the temporary chairmanship of the convention or have ever taken the slightest step to do so is wholly untrue. I never heard Mr. Sherman's name suggested as temporary chairman of the State convention until I saw in the newspapers of August 16th that he had been selected at the meeting of the committee. When you called at my house Saturday, August 13th, you told me that Mr. Roosevelt intended to go to the convention as a delegate and you suggested incidentally his being made temporary chairman—a suggestion in which I acquiesced. It did not occur to me that anyone would oppose it. This was the first time the subject of the temporary chairmanship was mentioned to me by any one. You did not ask me to take any action whatever with respect to it. After a full discussion of the New York State situation, I drafted in your presence the following telegram and sent it to Mr. Sherman:

"'Beverly, Mass., Aug. 14, 1910.

"'Hon. James S. Sherman, V. P., Utica, N. Y.

"'Please say to Ward and Woodruff that I have had a long conference with Griscom. He confirms my judgment

FORESTS RAGING WITH FIRE DEMON

There Have Been Fifty Lives Lost, Many Missing and Others Injured.

SEVERAL TOWNS WIPED OUT

President Taft Takes Action—Thought to be of Incendiary Origin—Situation Most Acute—Villages Are Threatened.

Spokane, Wash., Aug. 22.—With more than 50 persons known to be dead, more than 100 missing, 200 injured, half of the city of Wallace burned, and two or three villages obliterated, forest fires tonight continue to threaten death and destruction over a large local territory in northern Idaho, eastern Washington and western Montana. Half a dozen villages are seriously threatened by the flames, and their inhabitants by hundreds are hurrying to places of safety. Wallace is now safe and no towns are burning.

The situation is most acute in the Coeur d'Alene region of northern Idaho.

Sunday's Destruction.

Wallace, Idaho, Aug. 21.—Twenty-four dead and twenty-five injured beside a number suffering from being overcome by smoke, is the record thus far of the fires which destroyed half of the town and still is raging here. The steady work of the city fire department, members of the 25th Infantry, colored volunteers, and the forestry service alone saved Wallace from total destruction.

The conflagration in the east end was stayed shortly after 11 P. M., and back firing on adjoining hills to the west and south prevented new fires in these directions.

It is estimated that the loss in the city is about $1,000,000.

About 150 residences are destroyed and many other smaller business places.

The forest supervisor reports that the country between Wallace and the St. John river is swept practically clean, and that the loss of timber is stupendous.

Fire between Burke and Mulla threatens both towns tonight and many women and children are being sent away.

At War Eagle Tunnel, three miles from Wallace, six dead were found and two were seriously burned. Five of the dead in the tunnel had sought refuge. They lay with their faces down in the water covered with wet rage and blankets and had died partly from the flames and partly from suffocation. The injured were relieved by temporary dressings and were taken to improvised hospitals.

One fire-fighter was found dead near Mullan and 16, who were more or less seriously burned. At Pib Creek three are dead, five blinded and five otherwise injured.

It is impossible to learn the names of the dead, most of whom came in from Spokane and other points at the call for help. The bodies are being buried wherever they are found.

Wallace, Idaho, Aug. 22.—The loss of life in the forest fires that swept over the Coeur D'Elene region Saturday and Sunday is tonight placed at 80 persons. Forestry officials received word that 34 fire fighters had been burned to death on Big Creek and 30 had met death on Superior lake.

Word came today that 16 men near Avery, on the St. Joe river, had been burned but a later report said that all but four came out safely. Six men were killed in the Explainer Creek fire, three miles from Wallace, three near Mullane, and three at Wallace.

The whole country from here to the St. Joe river, 25 miles, has been burned over. The loss at Wallace still stands at $1,000,000. One hundred buildings were destroyed. The hospitals are full of wounded, a number of them being blind.

Story of Survivors.

Spokane, Wash., Aug. 22.—News of the loss of the men at Bear Creek was brought to Spokane today by W. D. McLellan, a newspaper photographer. McLellan was one of the relief party which made the trip to Big Creek on Sunday to rescue survivors. The heat was so intense that the party was unable to approach the spot where the camp had stood.

According to the 17 survivors, who reached Avery, the fire came on them while they were sleeping, and they were surrounded by flames. The men scattered and ran for safety. Little hope is entertained by the 17 that their companions survived. Five farmers are now dead at Newport, Wash. Several persons were rendered temporarily insane.

Mrs. Ernest Reinhardt broke away from the survivors after they had borne her from her burning home and madly rushed into the flames. Fire is still threatening Newport.

Soldiers of the 25th United States Infantry, colored, who are patrolling Wallace, Idaho, under the direction of Mayor Hahsen have been ordered to shoot vandals, whose depredations have become serious. Chicago, Milwaukee and Puget Sound refugee trains through the burned region are furnished with guards of negro soldiers and the discipline, valor and general efficiency of the negro troops

COL. ROOSEVELT TO START 5,000 MILE JOURNEY TODAY.

New York, Aug. 22.—The itinerary of Colonel Roosevelt's trip West has been issued from the press, and when the party starts tomorrow morning for Utica the eyes of a great part of the United States will be turned toward the places he will visit. Of course of first importance will be his utterances on things political, but he is to make other speeches in the course of his journey which will probably have little bearing on National affairs. A look at the map will convince one that the former President is not going to be satisfied to "swing around the circle," as has President Taft several times since he assumed office, but that Mr. Roosevelt plans to "cut figure eights" by crisscrossing and rertacing his route in a number of places. Col.Roosevelt will occupy the private car Constitution with William B. Howland, Ernest Hamlin Abbott, Harold J. Howland and Frank Harper, secretary. In the car Forrest there will be Wade Mountfortt, Jr., representing the American Press Association, and 16 other special correspondents and artists. The total mileage of the trip will be 5,493 miles.

GEORGIA ELECTION ON TODAY

Close of Warm Campaign Between Supporters of Governor Brown and ex-Governor Smith Both Claiming Victory.

Atlanta, Ga., Aug. 22.—Tomorrow the Democrats of Georgia will nominate a governor to succeed Jos. M. Brown. The nominee will be either the present governor or former Governor Hoke Smith—the third candidate, Edward H. Walker, being unquestionably eliminated by reason of the close drawn factional lines. In the closing days of the campaign the fight between the Brown and Smith factions has become more or less heated and the close of the campaign find both sides claiming victory.

With two rival torchlight processions that taxed the police force of the city, the campaign in Atlanta saw a spectacular finish. To prevent a clash between the two armies of Smith and Brown marchers, each body was pledged to obey the orders of police at head of each column, and by a further precaution the Smith men were compelled, by order of the Mayor, to go four blocks out of their way in order to prevent the two bodies coming together in front of the Governor's mansion.

The managers of the campaigns of Governor Brown and ex-Governor Smith tonight gave the Associated Press the following predictions as to the results of tomorrow's election:

By J. R. Smith, Manager for Governor J. M. Borwn: "Based on reliable and confidential reports from Governor Brown's friends in practically every county in the State received during the past 48 hours, we are confident that he will be triumphantly renominated in tomorrow's primaries. In our candid judgment he will have not less than 250 votes in the convention out of a possible 368."

By Calvin M. Hitch, Manager for Hoke Smith: "Governor Brown's election two years ago was largely due to the panic that swept the country about the time of his election. The many changes that have been going on for the past three weeks clearly indicate that Hoke Smith will be elected by a large majority. Of the 146 counties in the State he will carry from 110 to 115 and his popular majority will be in the neighborhood of 25,0000."

Contests have been heated in several of the Congressional districts and in two of these, Congressman Hardwicks and C. M. Livingstone, the results have almost overshadowed the contests for governor.

SLEW CAPTAIN TO ROB SHIP

Two Sailors Planned to Murder the Crew and Officers—Plot Frustrated, One of the Buccaneers Killed Himself.

San Francisco, Aug. 22.—With her captain, E. B. Wood, dead in his cabin as a result of an attempt by two desperadoes to hold up and rob his ship at sea, the steamship Buckman arrived today from Seattle with Geo. Washington Wise, one of the two buccaneers, in irons. Since he was captured early yesterday, he has confessed that he and French West, planned to murder the officers and crew of the steamship before beaching her on the coast near Point Blanco.

This plan would have been carried out, had it not been for the cowardice of Wise, according to officers of the Buckman. After holding a shotgun levelled at the quartermaster and the second mate for three hours, Wise deserted his post. Seeing the futility fo trying to overcome the crew alive, West is believed to have jumped overboard. No one saw him leap from the vessel and the ship will be thoroughly searched in the hopes that the murderer of Capt. Wood may still be on board.

Heavily armed and equipped with cords to be used in tieing up the "owl watch," the two men invaded the bridge at midnight, entered the wheel house, and compelled Second Officer Frederick Plath and Quartermaster Otto Kohlmesster to throw up their hands.

Leaving the second officer and the quartermaster in charge of Wise, after binding Plath and instructing Kohlmeister to hold the vessel nose toward shore, West demanded entrance to Capt. Wood's cabin. What reply the captain gave will never be known. From the position of his body, it is believed that he was reaching for his revolver when West fired through the door and riddled him with buck shot.

In the meantime Plath strained at his bonds until he could reach the signal cord. He gave the signal to the engineer that there was a fire on board. Chief Engineer Jno. Callfas ran to the bridge, where he was met with a command to hold up his hands. He obeyed promptly, and joined the line up which now included two-thirds of the crew. West instructed them to hold to the bridge rope, which was above their heads.

Callfas, watching a chance, jumped over the bridge through the sky light into the gallery. West went in pursuit of the chief engineer and the men whom he had guarded fled in all directions. At this juncture, Watchman Wilson appeared on the scene with the only revolver outside the captain's cabin. He snapped the weapon twice at Wise, but it failed to explode. This was enough, however, for the weaker of the two thugs. He fled only to meet his partner, who at the point of his shot gun ordered him to cut the wireless connections.

West began shooting whenever a head appeared. Finally a splash was heard and all became quiet on board. At first no trace of either robber could be found. Wise was afterward discovered hiding in his bunk.

According to Wise, he met West on board the training ship Pensacola. They deserted the navy early this month and went to Seattle. When they boarded the Buckman they were well equipped with arms and ropes with which to overcome and bind the officers and crew.

They planned to beach the Buckman, rob the purser and passengers and to make their way with their booty to shore in a small boat.

OLIVER DIES ON OCEAN LINER

Vice President of Big Cotton Concern and Closely Identified With Industry in South—Established Plant at Columbia.

Baltimore, Aug. 22.—Charles K. Oliver, vice president of the Consolidated Cotton Duck Company, of this city, died this morning aboard the German-American Liner Grosser Kuerfurst, from London to New York, according to advices received here today. The cable gave no word as to the cause of death. Mr. Oliver left London apparently in good health. He had spent some time in Europe on a pleasure trip, and was due to arrive in New York tomorrow morning.

Mr. Oliver, who was 56 years old and a native of Arlington, Vt., had in recent years been closely identified with the cotton manufacturing industry in the South, and his interests in that section were reputed to be large. His son, Sewell K. Oliver, is the head of the Columbia Mills of the Cotton Duck Company at Columbia, S. C.

Mr. Oliver with his wife and daughter made their home in Baltimore. Several years ago he went to South Carolina and established in Columbia the mammoth plants of the Consolidated Cotton Duck Company. Following his return to Baltimore and the consolidation of the United States Cotton Duck Corporation and the Mount Woodberry Cotton Duck Company, he was elected president of the Consolidated company serving in that capacity until last December. He relinquished that office and until his death was vice president of the concern.

OWEN NOW NAMED IN LAND SCANDAL

Senator Principal in Suit Involving Indian Contracts is Asserted.

RESULT OF BRIBERY CHARGES

Owen Testified That He Entered Into the Contracts Before He Became Senator—Details of the Investigation.

Sulphur, Okla., Aug. 22.—The name of United States Senator Robert L. Owen entered into the Indian land investigation today.

E. P. Hill, an attorney for the Choctaw nation, testified before the special committee which is investigating the Gore bribery charges, that Senator Owen is the principal in a suit in which are involved contracts with the Indians calling for 50 per cent. fee.

Mr. Owen, however, testified Attorney Hill, entered into the contracts with the Indians several years before he became Senator. He is not now trying to get 50 per cent., but has left it to the United States Court of Claims to determine how much he should receive.

The value of the property, which, it was asserted, Mr. Owen's suit sought to restore to the Indians, was fixed by the Department of Justice at from twelve to fourteen million dollars. As attorney for the Choctaw's, Mr. Hill said he was resisting the suit.

"In 1896," said Mr. Hill, "Mr. Owen entered into an arrangement with Chas. F. Winton to attempt to procure for Choctaw Indians living east of the Mississippi river citizenship in what was then Indian Territory. Winton went to Mississippi and got many individual contracts, the claimants agreed to give to Winton and Owen 50 per cent. of all property which they would become possessed of, if they were admitted to citizenship.

"Winton, after obtaining many contracts died. His rights diverted to Mr. Owen. After the Indians were admitted to citizenship, Congress referred Owen's claim to the Court of Claims, which is now pending. Since he became Senator, I don't believe that Mr. Owen has shown any activity in his case, except to testify as he was required."

Senator Owen based his claim, the witness said, on legal services he rendered at Washington and in Oklahoma prior to his election to the Senate.

"Now," asked Representative Campbell, of Kansas, "suppose Senator Owen should be allowed by the Court of Claims all that his contracts call for, how much would he get?"

"He would receive 50 per cent of $12,000,000 or $14,000,000 according to the value of the property."

"Is he secured in any way?"

"The Omnibus Indian Bill, passed by Congress in 1908, provides that the Owen fee shall be a lien on the property of the Indians."

"What would be the effect on the Indians if the fee provided for in the contract was granted?"

"It would take all the property the Indians have. They would be penniless, if they had to pay the fee.

Mr. Owen was elected Senator in 1907. He lives at Muskogee. He is now in Canada.

REVOLUTION ENDS MADRIZ RESIGNS

After Advance of Troops Toy Republic is in Estrada Hands.

MANAGNA HAS NOW FALLEN

No Resistance Was Offered to General Luis Mena and The Transformation Followed Sunday Fighting at Weskyter.

New Orleans, Aug. 22.—After almost a year of severe fighting the revolution which was begun by several hundred Nicaraguon insurgents at Bluefields on October 10th, 1909, practically ended today with the advance by the revolutionists on the capital city of Manague and the resignation of President Madriz in favor of Gen. Jose Dolore Estrada, brother of the insurgent leader.

Cable dispatches received in New Orleans today announce that Managua had fallen.

"No resistance was offered to Gen. Luis Mena, who at the head of an army, largely augmented by the campaign in the interior, marched into the city. Dr. Jose D. Madriz, who had been president since Zelaya was deposed last November abdicated before the insurgent army arrived. Jose Estrada in turn issued a proclamation declaring his brother Gen. Juan Estrada, "president of the re-united Republic of Nicaragua."

Managua, Aug. 22.—The advance guard of the revolutionists is now one mile from Managua. President Madriz left the capital Sunday night for Corinto accompanied by his chief advisers.

William Pittman, the Boston engineer, accused of laying mines, is free at the American consulate, All the prisoners in the penitentiary have made their escape.

There was rioting Sunday night, but it was quickly quelled. The situation is critical.

Before departing for Corinto with Generals Toledo, Vasquez, Ortio and Montenegro, and Dr. Julian Irias, the presidency was turned over by Madriz to Jose Dolorese Estrada, a borther of Gen. Juan Estrada, the leader of the revolution. Immediately afterwards Jose Estrada issued a proclamation saying that he would give the office to his brother, and started a peace commission composed of foreign consuls for Granada to inform Gen. Estrada of his intention. The commission was compelled to return to Managua, however, as the railroad tracks had been torn up.

Washington, Aug. 22.—While official dispatches were lacking scarcely any doubt remains in Washington tonight that the Madriz forces have been crushed in Nicaragua and that Gen. Juan Estrada, leader of the Insurgents, has succeeded as temporary acting president of the Managua government.

Only the staunchest adherents of Madriz held to the belief that his cause is not yet lost. Dr. Barrios and Sebastian Salinas, the latter until his departure for the United States military governor of Granada and both Madriz commissioners to Washington refuse to believe the reports from Managua and Bluefields of the Madriz reverses.

They contend that even if Granada has fallen, which they profess to doubt, another battle will be necessary before Managua could be taken. Instead of Madriz having fled to Corinto on the coast they declare that he is fighting at the head of his army, and for that reason alone he had deposited his power with Jose Dolore Estrada, a brother of the leader of the "insurgents" but not a follower of him. Again they say that with Managua in the hands of the "insurgents" Madriz would fall back on Leon, the liberal stronghold that raised an army of 10,000 men in 1893 and put Zelaya in power, there to make a final stand.

Gen. Castrillo and Don Pedro Chamorro, the latter an uncle of General Chamorro, who has been leading a division of the Estrada forces were without direcet news from either the eastern or the western coast.

The last dispatch they received told of the death of Gen. Rivas in the fighting at Granada.

State Department officials declined to discuss the developments in Nicaragua. It is well known, however, that they are pleased at the reported downfall of the Madriz power, and that they look with favor on General Juan Estrada, whose treatment of Americans and the protection afforded to American interests along the eastern coast, where he has been recognized as the head of responsible government, has been the subject of repeated praise. Te department is expected to recognize Estrada only after a satisfactory assurance of an early election, which shall be fair and open to all candidates.

Estrada Cables Knox.

Bluefield, Aug. 22.—General Estrada today cabled Securetary of State Knox at Washington an assurance to the American people of his warm regard and offering to make amends for the execution of the Americans Cannon and Groce and other unfriendly acts

Rocky Mount, N. C., Aug. 22.—The break came in the 13th session and the game went to the Navigators on an easy grounder to second that bounded bad and went over Gastmeyer's head when but tor the crews lack of luck would have made the third out and no score.

It was a pitcher's battle in which neither Brooks nor Boyle had advantage over the other and had not luck put in, the game would have gone a tie. Both pitchers were as effective as it was possible to be and while Brooks has hits in his favor, he was no more effective than Boyle, who produced from one to three easy outs whenever they were needed. The railroad crew played the game well behind Boyle, though four errors are charged, one of which is against Dave Creagan, the Railroader centerfielder, and it is the first of the year and he has participated in every game. The Navigators got off with a perfect fielded game.

COX GETS FIVE YEARS

Judge Long Gives Slayer of Reece Hucks Minimum Sentence.

Charlotte, Aug. 22.—Ed Cox for slaying Reese Hucks, one year ago Saturday, was sentenced to five years in the penitentiary this afternoon at 2:45 o'clock, by Judge Benjamin F. Long, who is presiding at the present term of criminal court.

When Judge Long walked into the court room at 2:30 o'clock this afternoon every available inch in the large court room was taken. It was the only time in the history of the case that such a crowd had been present.

When he sounded his gavel on the heavy table, the room jammed with people was as silent as the grave. Judge Long waited for a moment and then announced that he would not sentence Ed Cox immediately. It is his desire to dispose of the many and less important cases against Charlie T. Cox, J. Mack Cox, Lester Hucks, B. L. Davis and others. There is also a warrant or two against Ed Cox, charging him with carrying a concealed weapon and for assault and battery. These charges seemed merged in the greater crime of taking Reese Hucks' life and Solicitor Clarkson, for the State, asked for no judgment, stating that a continuance of these two warrants is the only disposition he wished taken.

Judg F. I. Osborne, for the defendant, rose to his feet and stated to the court that he was ill and begged that he pass sentence on Ed Cox, before any disposition of the other cases be made.

In deference to that request Judge Long stated that he would pass sentence though he had desired further time for consideration. The impression lingered with him, he said which had been gathered from the trial, that the father of Cox and his uncle were really responsible for the trouble and that had it not been for them Hucks would be alive today and Cox free. "I wish his father could take his place," he said. If he has the heart of a father, he ought always to regret that he was the cause of his son's going to prison."

TRAGEDY IN WADESBORO.

Peter Edwards Killed by His Brother. May be Insane.

Wadesboro, N. C., Aug. 22.—Jesse Edwards shot and instantly killed his brother, Peter Edwards, at their home in northwestern part of this county yesterday. From meagre reports which can be gotten over telephone today, it appears that the murder was without provocation. Peter Edwards had been to church and was sitting on the porch of his home when Jesse Edwards came out on the porch and asked his brother if he, Jesse, was crazy. Peter replied that he was a doctor. Jesse returned to the house, secured his pistol, and came back to the porch. The mother of both men was standing on the porch and Jesse pushed her to one side and fired three shots at Peter, killing him instantly.

Jesse Edwards was brought here and placed in jail today. He does not have very much to say, but acknowledges the shooting. He has had trouble with his brother before. Jesse was thought by some people to be insane for a while, but this opinion is not held by the native community.

DOPE THE BABIES.

Effort to Get Legislation Prohibiting Sale of Objectionable Drugs.

New York, Aug. 22.—That babies in their cradles contract drug habits through being doped promiscuously with paregoric, laudanum and other household remedies, is the assertion of President Lederle, of the New York Board of Health. An effort will be made by the board to procure local legislation prohibiting the sale of the objectionable drugs except upon prescription.

A statement by President Lederle says:

"Notwithstanding their dangerous nature, the sale of these drugs for the relief of minor troubles is enormous. Mothers keep the paregoric on tap and are more careful to have it in their homes than they are to see that their sugar bowls are filled. At the first sign of an ache or pain, often the moment the baby cries, the mother dashes for the paregoric bottle. As a result the baby is drugged unnecessarily."

FATAL FALL

Stylishly Dressed Stranger Found Back of New York House.

New York, Aug. 22.—Stylishly dressed and well supplied with money, a man in whose pockets were visiting cards engraved "Bert Vanderbilt, Lambs Club," was found today in the rear of a theatrical boarding house in West Forty-second street. His skull was fractured and he has not regained consciousness. At the Lambs Club it was denied that any Bert Vanderbilt was a member.

The police have taken into custody Edith Imen, a chorus girl; "Kid" Broad, a pugilist, and his chum, Ralph Millerple. The Imen girl told the police that Vanderbilt was trying to enter her room on the third floor by stepping over from Board's window to the window ledge of her room, and that he fell into the yard. Board says he was not in his room.

The name of Vanderbilt is believed by the police to be fictitious, and Acting District Attorney Moss says he thinks that Miss Beryl Vernon, of 132 Pine street, Philadelphia, who has been visiting at the Forty-second street house knows the identity of the man whom he believes to be from Philadelphia.

Miss Vernon told the coroner that she knew little of the affair between Vanderbilt and Miss Imen, but Miss Vernon said she seemed to be anxious to conceal the man's identity.

BRITISH CRUISER ASHORE.

Eighteen Lives Lost on Shore of Korea Sunday.

London, Aug. 22.—Eighteen lives were lost when the British cruiser Bedford ran ashore on the docks of Quelpart Island, Korea, yesterday, according to the report received here by the admiralty. The men were members of the engine-room staff.

The accident occurred during full speed trials of the vessel, and the cruiser was evidently badly holed, since the deaths are stated officially to have been due to "the inrush of water."

The Bedford is an armored cruiser of the so-called "County" class of 9,800 tons, completed in 1903, at a cost of $3,530,000. She was armed with 14 six-inch guns, had a rated speed of nearly 22.3 knots, and carried a normal complement of 537 men.

Tokio, Aug. 22.—Further details of the grounding of the British cruiser Bedford, which ran ashore on the western portion of Quelpart Island on Sunday, showed that the vessel is seriously damaged, and lies in a bad position.

A number of Japanese warships accompanied by lighters and salvage vessels, were dispatched from the nearest Japanese station immediately, but whether the ship can be salvaged is doubtful.

Burlington, Vt., Aug. 22.—The pilot car of the Munsey automobile tour arrived here from Bethlehem and Montpelier, Vt., shortly before 4 o'clock this afternoon and all of the cars were in the city by 4:30 P. M. It was announced that the route had been changed from original plans, which called for tour around the North side of Lake Champlain. Some of the cars left here tonight and others will leave tomorrow via boat for Plattsburg on their way to Saratoga.

WHEN HER BACK AGHES

A Woman Finds All Her Energy and Ambition Slipping Away.

Wilmington women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Wilmington woman's words:

Mrs. Laura E. Hand, 809 Ann street, Wilmington, N. C., says: "I am willing to recommend Doan's Kidney Pills, as they did me a world of good. I suffered from dull, nagging backaches, and had such severe pains across my loins that I was prevented from sleeping well. The kidney secretions also caused me annoyance. When I saw Doan's Kidney Pills advertised, I procured a box from Robert R. Bellamy's drug store, and they did me more good than any other remedy I had ever taken. The backache ceased, my kidneys became normal, and I could go to bed and obtain a full night's rest."

AFFAIRS AT LUMBERTON.

Alleged White Convict Arrested—Farmers' Educational Rally.

(Special Star Correspondence.)

Wadesboro, N. C., Aug. 22.—W. O. Watts, a white man, said to be wanted in Marion county, S. C., to serve an incompleted road sentence, he having escaped from the gang, and for whom a reward of $25 was offered, was arrested here this afternoon by Chief of Police Redfern. Watts was on the Wilmington police force ten or twelve years ago, but in some way lost out. He is a native of this county and is said to have married within a few miles of Lumberton.

An order was placed today with a representative of the American Type Founders Co., for an outfit for printing the proposed new Republican paper which is expected to appear early in September. It will be a 24 column sheet and will be issued on Wednesday of each week.

Chief of Police Redfern left on the evening train for Wadesboro in response to a telegram informing him of the serious sickness of one of his children.

Sheriff McNeill left on the evening train for Maxton in response to a 'phone message informing him of the arrest of a man which he wanted. No name was given, and though the sheriff returned on the late train it was too late to get the particulars.

A snake two feet long of the moccasin variety, was killed in a yard on Main street late this evening. It was not large enough to do much damage, but sufficiently large to cause some ladies to almost have chills.

The following item in reference to the Farmers' Educational Rally to be held here Friday, appeared in The Robesonian this afternoon:

"The Farmers' Union educational rally which will be held in Lumberton Friday will, it is expected, be attended by a very large crowd of people from all over the county. Excellent speakers have been engaged and it will be an occasion which no one who is interested in education in Robeson can afford to miss.

"The rally will be held in connection with the county teachers' institute, which has been in session since last Monday and will close on that day. At 10:30 o'clock Friday morning the exercises will begin in the auditorium of the graded school building. Dr. Harrison, of the A. & M. College at Raleigh, will deliver an address on "Agricultural Education;" Dr. J. B. Carlyle, of Wake Forest College, a native of Robeson and too well known throughout the county to require any special introduction, will deliver an address on the subject "Back to the Farm;" and Supt. W. H. Swift, of the Greensboro graded school, will deliver an address on education."

SHERMAN TO SPEAK.

Vice President Will be in Charlotte in October.

(Charlotte Observer, Aug. 22.)

Vice President Sherman is to speak in Charlotte the last week in October, probably the 25th. In response to a query from The Observer yesterday Congressman John M. Morehead wired the following:

Spray, N. C., Aug. 21.

The Observer,
Charlotte, N. C.

Vice President Sherman will make several speeches in the State probably the last week in October. The dates and places have not yet been determined. Charlotte, of course, will be included.

(Signed) JOHN M. MOREHEAD.

The coming of Vice President Sherman, of course, will be an event of no little consequence. He will doubtless address himself to the issues of the day which is but another way of saying that he will make a red-hot political speech. Vice President Sherman is regarded as one of the most forceful orators of the administration. That Charlotte will give him a warm welcome goes without saying.

It is more than likely that the local Republicans will make the visit of the second standard-bearer of the party a gala day in Charlotte. Roseate hopes are entertained that the Republican candidate for Congress will carry this district and it may be that effort will be made to put forth some demonstration at this time. However that may be, there is abundant time for further details. For the present it is enough to know that Vice President Sherman is to speak in Charlotte in October.

TO DEVELOP TERRITORY.

Agricultural and Immigration Agent Anxious to Get in Touch.

The Atlantic Coast Line is very much alive to the possibilities in the development of the territory through which its lines run. Mr. E. N. Clark, recently appointed Agricultural and Immigration Agent for the States of Virignia, North and South Carolina, with headquarters at Wilmington, has traveled thousands of miles since his appointment on June 15th, acquainting himself with his territory and s) of our good people. He is enthusiastic in his praise of both, and invites the hearty co-operation of every one that is interested in developing the waste lands throughout his territory. He is anxious for parties who have unimproved farm lands to sell to correspond with him freely as he is in close touch with parties in the East and West who want homes in the Sunny South. In this way he can help the parties who have land to sell, and materially aid homeseekers. The reader is asked to get in touch with Mr. Clark and help develop the best section in the United States.

WAR RELIC RECOVERED.

Battle Flag to be Returned to North Carolina Regiment.

Boston, Mass., Aug. 21.—A civil war battle flag carried by the Thirty-fourth Regiment of North Carolina volunteers, and which has been for many years in the possession of a Plymouth, N. H., family now living in this city, is soon to be returned to the Southern State. While on a visit north, Mrs. R. H. Chesley, daughter of a Confederate officer, learned that the flag was in this city and obtaining it, offered it to the old regiment or the State of North Carolina. She has received a reply from Governor W. W. Kitchin, of North Carolina, stating that the flag would be greatly appreciated.

AFFAIRS AT STATE CAPITAL

Superior Court Judge Charles A. Cooke, of Louisburg, was in the city this morning on his way to Goldsboro, where he expects to hold Wayne county court this week. He left his son, P. H. Cooke, prominent attorney of Louisburg, very ill. Indeed, his condition has been critical for several days and Judge Cooke says that the attending physician reported only a very slight improvement in his condition this morning. He felt that he was just obliged to go on to Goldsboro for the court there, although he fears that a telegram may come to him at any moment calling him back.

It is announced that Wednesday of State fair week is to be "Good Roads Day" and that the entries of road building machinery are to be by far the most extensive that has ever been seen, not only in North Carolina, but anywhere in this section of the country. Secretary Joseph E. Pogue says this will be the red letter day of the fair and that the exhibition of road building and conserving machinery will be an object lesson well worth the while of traveling from every quarter to see. Its educational features will be of surpassing importance in the campaign for good roads that has been on in this State for several years.

The North Carolina Ostiopathic Society (Inc.) of Raleigh, is chartered with the practitioners of Osteopathy the State over as the promoters and Drs. H. W. Glasscock, Raleigh; A. R. Tucker, Greensboro, and A. H. Yearby, of Goldsboro, as the incorporators. The declared purpose is to unite the Osteopaths of the State for mutual encouragement and improvement, encourage scientific research into the laws of health and treatment of diseases of the human family, to elevate the the standard of professional thought and conduct in the practice of Osteopathy.

The concrete or cement foundation for the asphalt paving along Fayetteville street is all down from Davie street to Capitol Square on the left side of the car tracks and the work turned into Morgan street on the way around Capitol Square. None of the finishing layer of asphalt has yet been put down anywhere in the district that is to receive this paving. The city authorities are rather expecting the next Legislature to make some provision for the State to take care of a part of the pavement that is to extend around the State house.

The attention of Col. Alex J. Field, Private Secretary to Governor Kitchin being called to the newspaper comments on the omission of the name of Hon. H. L. Godwin from the list of delegates to the Waterways Convention Providence, R. I., Aug. 31 to Sept. 3 appointed by the Governor, he said:

"The Governor was away from the city when this list was made out. He had, however, told me to include in the list all the Congressmen whose districts were directly interested in the movement. This I did and Mr. Godwin's name was included in the list as I made it out. When the stenographer copied the list for the newspapers the name of Mr. Godwin was by oversight left out. Mr. Godwin is a delegate."

The Governor has not deemed it proper for him to take any part in the controversy in the Sixth Congressional District between Messrs. Godwin and Clark, and he has not done so. Additional delegates to the convention are announced as follows: S. M. Brinson, Newbern; D. M. Stringfield, Manteo; Thos. W. Blount, Roper; John A. Wilkinson, Belhaven; E. A. Daniel, Jr., Washington; T. H. Woodly, Columbia; Mark Majette, Columbia; A. O. Gaylord, Plymouth; W. M. Bond, Jr., Plymouth; W. H. Gallop, Jarvisburg; W. T. SEVEN VICTIMS IN WRECK.

Collision Between Two Trains on the Central Vermont.

Northfield, Vt., Aug. 21.—Seven bodies, the greater number of them burned beyond recognition, have been recovered from the charred wreck of two freight trains of the Central Vermont which met head on at Northfield Falls today and at least three or four others are thought to be still in the debris. Several others were injured one probably fatally. The dead are:

Engineer J. W. Berryman, Fireman Dubec, Conductor Lane, Conductor William Brunelle, Brakeman Leon Labuque and two train men names unknown.

Twenty-two cars were burned and the horror was intensified when the two tank cars of oil exploded. So far as known no member of the northbound train escaped. Responsibility for the accident has not been placed.

MINERS MUST PAY $100,000.

Convention Adjourns After Ordering Assessment and Indorsing Strike.

Indianapolis, Ind., Aug. 21.—The special international convention of United Mine Workers adjourned sine die early today, after adopting the substitute report submitted by William Green, former president of the Ohio district, which provides for an assessment of $1 per week on all miners working, the indorsement of all strikes, the dismissal of international organizers, and a criticism of the international board.

President Lewis announced that all points conflicting with the constitution would not become law. He declared the dismissal of the organizers and the section criticising the international board were unconstitutional.

It is estimated that the convention cost the miners of the country close to $100,000.

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives **no outside heat.** All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking — none in outside heating.

New Perfection
WICK BLUE FLAME
Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is **no surrounding heat—no smell—no smoke.**

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Tuesday, August 23rd, 1910.)

During a difficulty with strikers in New York the wives of the strikers threw pepper into the eyes of the policemen. When women take a notion they can make men see sights.

A Chicago club has refused to grant a charter for a woman's auxiliary branch of the club, on the ground that women cannot be managed. The club must be composed of married men.

There was so much that was contradictory in Senator Aldrich's "denial" concerning the increased duty on rubber that his denial is generally accepted as a confession.

What shall we do with our ex-Presidents? One thing we can do for them is to advise them not to mess around in politics where a Vice President can sit down on an ex-President.

The Louisiana Baptist Association has pronounced the automobile a sinful extravagance. It may transpire that joy riding will yet be condemned under the same rules that placed dancing under the ban.

Some politicians purposely say a great many things so people can't understand them but if seems that President Taft can't understand Col. Roosevelt because he hasn't said anything capable of interpretation.

The tide goes out whenever it gets ready, but a married man is not allowed to go out till his wife gets ready. The tide comes in regularly and that is where a married man again differs from the tide.

President Taft hinted that Speaker Cannon "must go", but Uncle Joe overruled the President, denying his jurisdiction. The President might have known that he didn't have jurisdiction in the case, for a President has not the power of the "Czar."

A Republican in western North Carolina inquires: "What is meant by 'self-government' in the North Carolina Republican platform?" It means whatever you want it to mean, but this is the best way to define it: Jug, juggler, jugglery, jugorum.

President Taft, believing that several Northern and Western States will repudiate Republicanism, has hopes that several Southern States will go Republican. Southern States are not apt to accept what Republican States throw into the gutter. Not if the South knows itself, and we think she does.

Says the Jacksonville Time-Union: "Franz Joseph, of Bavaria, wants New York's four hundred to understand distinctly that he is not fortune hunting, nor wife hunting, this being no doubt an off-season with him." Probably he prefers to rubber around before he decides to invite bids for his hand.

An Oklahoma Indian declares that his people recognize the fact that the Federal laws encourage grafting from them and protect the grafters. The white folks can add the complaint that the Federal laws passed by Republicans encourage protected interests to prey on the people and that the whole party makes a boast of taking care of the depredators.

The insurgents are trying to get rid of Cannon, Ballinger, et al., for the good of the American people. President Taft and the National stand-pat machine is trying to get rid of them in hopes of saving the Republican party. They refuse to be made Jonahs, and so far as the people are concerned they know that neither Aldrich nor Cannon nor Ballinger are responsible for the wrongs committed by the Republican party against the people. No man should be deceived into believing that two or three men withold relief to the consumers of this country. The Republican party is the culprit.

PERNICIOUS COMBINATIONS.

The esteemed Washington Post, in an effort to get at the cause of some of the high prices which consumers are up against, notes that last Spring when the pick of fancy hogs ready for the butcher were selling in Kansas City at $10.00 to $10.50 per hundred pounds, choice breakfast bacon was selling at the corner groceries at 25 cents per pound. The Washington paper, by way of comparison, goes on to state that today the price of such hogs in Kansas City has fallen to $8.00 and $8.50, while the price of bacon at retail in Washington is 30 cents per pound.

Think of it! Bacon now sells at nearly twice as much as dressed turkey was sold for only a few years ago. White side at 30 cents a pound certainly has gotten to be a luxury. It is no longer the poor man's meat, and if he hasn't got the 30 cents a pound he and his children can't even afford to sop out the pan. In comparing the prices of hogs on the hoof at Kansas City, it will be noticed that while there is a reduction of two cents a pound, the price of bacon at the corner grocery has advanced five cents a pound! The Post is astonished at the fact that while hogs are cheaper bacon is considerably higher, and thereupon remarks:

"If somebody will give a satisfactory explanation of that incongruity, a politer term than the nature of the case justifies, then we will undertake to elucidate all the mystery clinging around this exasperating high cost of living. There is something rotten in the State of Denmark, and here is what it is: The law of supply and demand is nullified. That the increased production of gold and our increased population have much to do to raise prices nobody denies; but there is a factor that discounts both of those in the equation, and that factor is the combinations in restraint of trade, born of greed and existing in defiance of law and contempt of conscience."

The packers attempt to explain the high price of meat by contending that not only has the demand outgrown the supply, but there is a big shortage in hogs compared with the supply which the hog raising States formerly produced. That, however, does not explain why the price of bacon did not go down after hogs on the hoof declined in price. Evidently the price of hogs on the hoof declined because there was a greater supply of hogs, so that logically, with a decline of two cents a pound for hogs, bacon should have dropped to 23 cents instead of going up to 30 cents. Therefore, we see consumers are actually made to pay the tremendous price of 23 cents a pound, which is the logical price, and are squeezed an extra seven cents per pound above the logical price.

The explanation of it is the numerous combinations which have secured control of the food supplies of this country. Concerns with immense capital have monopolized the buying and selling of what we eat. They have the means to curtail the supply whenever it suits them, in order to keep up prices, and such conscienceless manipulation of the food supplies leaves hunger unsatisfied and makes it impossible for many poor people to indulge in meat or other foods controlled by the remorseless combines. In their immense cold storage plants they store the meats and hold them back from the market at their own sweet will and fix prices to suit themselves. Millions of dozens of eggs are placed in cold storage to be put on the market as inferior if not unfit food, while a large portion of the egg stock spoils on hand and does not go to supply the tables of consumers and thus reduce the cost of living. Likewise, tons of butter are stored in the same way to keep it off the market and to keep up prices. Fruits and other foods are alsto stored, and so it goes. The combines which do this at the expense of the hungry masses are neither controlled nor suppressed by laws which are pretended to be passed for that purpose, but which are "liberally construed" or not enforced at all.

What is the use of passing any law, be it however so plain and direct or whether it has "teeth" or not, if it is to be "liberally construed," such as President Taft and the administrative officials at Washington recently decided to do with reference to the recent boasted Taft law enacted by the last Congress to take the place of the Sherman anti-trust law? The fact of the business is, Congress may pass any law that it may consider for the good of the people and the country, but a Republican administration, hand in glove with the money power, nullifies the law passed for the benefit of the Sovereign People. How long those sovereign people will submit to an open and shut game like that, it is for them to say at the ballot box, by means of which it is necessary to change administrations if there is to be any relief.

Uncle Joe is one Republican scapegot who will butt back when Taft and his machine butt in.

Colonel Roosevelt insists on occupying the "background". If he were to get into the background he would meet Colonel Bryan still endeavoring to get out of it.

BOOTLICKISM.

Tom Pence, Washington correspondent of the Raleigh News and Observer, has been camping on the trail of Marion Butler at Washington. Under the Washington date of August 20th, Correspondent Pence writes his paper that former Senator Marion Butler returned to Washington last week from the scene of his recent political triumph in North Carolina. The ex-Populist politician was feeling his oats, and, believing that the cross-roads political work which he had been doing in North Carolina was of National significance, he forthwith made haste to awaken the Nation to his achievements in making Congressman John Motley Morehead State Republican chairman in North Carolina. In the News and Observer of Sunday, Pence tells about it in a laughable way. In fact, the story is well calculated to make "a dog laugh."

Having something of the instincts of the newspaper man about him, but overlooking the fact that high principles regulate most newspaper shops, Butler conceived the idea that it was all important that he should be interviewed concerning the great movement to make North Carolina Republicanism respectable. He forthwith interviewed himself or had himself interviewed and got out seven pages of typewritten dope about the Republican situation in North Carolina. After carefully placing his own version of his accomplishments at Greensboro in the hands of Washington newspapers and the press representatives at the National capital, the ex-Populist Senator went his way, expecting a publicity that would be Nation-wide and National of import. "His feelings can be better imagined than told," writes Mr. Pence, "when the fact is recited that on the morning following not one of the papers that he approached used his seven-page interview with himself."

No doubt what Butler had achieved in North Carolina in making Morehead State chairman had been published as ordinary news. That was all it was worth and outside of North Carolina no great amount of significance was attached to that. In his interview Butler pretended to recite his political doings in North Carolina, but the purpose of his interview was so plain that the newspapers dumped it into the wastebasket. Under the guise of telling about an event of transcendent political importance in North Carolina, Butler throughout his interview bootlicked President Taft so designedly that the newspaper folks were nauseated and couldn't stand for it. The interview was such an undisguised piece of toadyism, and such a palpable piece of sycophancy in the hope of catching the attention of President Taft, his fawning rightly was regarded by the newspaper men as a matter too absurd and rediculous to receive serious attention. No doubt the mess would have struck Taft in the same way, for the President could easily have seen that the wily Butler was making a painful effort to engratiate himself with the chief distributor of Federal patronage.

The simple truth, is, Butler made himself a laughing stock around Washington and his disappointment must have been great. However, after several days, the Washington Post came to Butler's relief and publication was made "under small headlines of several paragraphs in the famous interview." In his interview Butler went out of his way "to bend the pregnant hinges of the knee that thrift may follow fawning," breathing deep loyalty and great admiration for William Howard Taft, whose great eye he wanted to catch. Flattery of Taft was the burden of the interview and the sycophant so plainly stuck out of the interview that President Taft himself would have been disgusted at such an effort to gain his great favor and still greater favors when the time comes to ask for them.

Correspondent Pence lays stress on the fact that Butler interviewed himself, asking himself a question and then answering it. He hoped to get the stuff in the Washington papers and especially the great papers of the East where the interview would fall under the eye of President Taft so the great dispenser of political gifts could see what great things had been done for him in North Carolina. The laughable part of it is the newspapers saw the trick and ignored it. They did not intend to have their leg pulled by Marion Butler for Marion Butler's benefit. They were not in the advertising business and did not consider themselves the mediums through which Butler could appeal to the President with his flattery and sycophancy.

"What about the attack made on President Taft on the floor of the convention on account of the appointment of a Democrat as Federal judge in the eastern judicial district of your State?" was one of the queries which Butler asked himself. This is how he answered himself:

"Yes," he said, "such an attack was made; it was made by one of the leading lieutenants of the Referees, and the convention answered that attack most emphatically by placing the responsibility upon the ring's hands, where it belongs, and by declaring that no such appointment would ever have been made had Mr. Morehead been State chairman."

Concerning the State chairman, Butler makes himself say this:

"Mr. Morehead's election means not only the saving of the three Republican districts that we now have in the State, but it means the election of two or three more Republican Congressmen, and possibly four this year, and besides it is entirely possible that the State ticket will also be elected this year."

"The nerve of such a statement, with Republicans everywhere admitting that the party is doomed to defeat in the coming Congressional election, almost attracts admiration. Poor Democrats of North Carolina! Butler magnanimously consents to let them have three Congressmen. With Republicans of National prominence conceding that the party cannot gain a single Congressman save possibly in Tennessee, and practically all of them admitting that the next House will be Democratic, is it any wonder that Butler's interview found its way into the wastebasket of several big Eastern dailies?"

Here are two other choice scraps from the Butler deliverance:

"That speech of President Taft and his subsequent announcement to the same effect, are responsible largely for the gaining of 31,000 recruits in North Carolina at the last election, and enabled Mr. Morehead with his own personality and the great business following behind him, to overcome a Democratic majority of over 5,000 in his Congressional district."

"Indeed the very announcement that Mr. Morehead was elected State chairman at our recent convention meant at least ten thousand recruits to the party the next day, and that more will come each day until election day in November."

Such gems as the above, and others, came very nearly making Friend Pence have a fit. Quoting them, he says: "Ain't it awful, Mabel, about Mary Ann failing to get these and other equally as modest views in a certain library at Beverly, Mass."

One thing which particularly stirred up the News and Observer's correspondent was Butler's reference to the Republican State convention which he manipulated at Greensboro. Says Butler:

"It was notable, not only for its splendid personnel, but for the high and patriotic resolve that actuated every delegate coming from every precinct in the State, to throw off the incubus of ring rule."

Think of a man saying that after he had been villifying Republicans all over North Carolina and then think again that those who are villified bent their knees to Butler and did his bidding. It moved Correspondent Pence to go off at this tangent:

"Think of the 'high and patriotic resolve that actuated every delegate' in the mad scramble to see who should have the privilege of dealing out the postmasterships and other Federal offices in the State. There was no discussion or division among the North Carolina Republicans at Greensboro, on the great questions of principle that are agitating and rending Republicans in every Republican State in the Union. The great questions that are dividing Republicans and that have arrayed former President Roosevelt against President Taft were not even given passing consideration at the Greensboro convention. The whole crowd attended the convention with only one object in view, and that was to get in the meal trough. They are with the man who deals out the patronage, be his name Taft, Mud or Roosevelt. Mr. Taft being in the White House at the present time, they are with him just as noisily as they were with former President Roosevelt when he doled out the offices."

These gems from Butler's famous interview seem to have made Tom Pence weary, for we find him adding this comment upon the Butler paragraph just quoted above:

For a truth, the whole thing is laughable and in November the patriotic voters of North Carolina will laugh Butler and his pretentions out of court. They will not aid Butler in his scheme to rake chestnuts out of the fire for distribution in North Carolina. He took particular pains in his interview to show up National Chairman E. C. Duncan as a traitor to the administration, thus adroitly if not boldly attempting totally to discredit Duncan so he could not hope to have "a finger in the pie." As a piece of disreputable politics and kowtowing for Presidential recognition the whole thing takes the cake. Such is Butlerism!

CURRENT COMMENT.

The Hon. "Sun Set" McNinch wants a "ship subsidy" for the benefit of the cotton manufacturer. Why, bless your heart, under the effulgent rays of Taft and Roosevelt "prosperity" there has not been demand enough for export goods to fill the bottoms Uncle Sam already owns.—Charlotte News.

A single farmer in Robeson county has this season shipped 7,000 barrels of potatoes, thirty cars of cantaloupes and eighty cars of watermelons. He has not yet finished shipping his melons and expects to get a bale of cotton per acre from the land which yielded his potatoes. It looks as if Robeson might not be so desperately interested in the hight cost of living, after all.—Charlotte Observer.

Mr. Taft will learn in time—and he has learned many other disagreeable things since he became President—that he cannot shift the issue by a change of men. The trio of undesirables whom he proposes to cast adrift represent certain well defined principles of the Republican party—graft in undeveloped resources of the country, unrestrained and usurped power in legislation and governmental care for the interests at whatever cost to the people.—Fort Worth Record.

It must be confessed that the new Republican organization is making good time in effecting a "respectable" party, for it has nominated Skinner, Hicks, Timberlake and others, all former Democrats, as well as selecting Morehead and Butler, also former Democrats, to run the machine. These are facts, not charges. It is shown that the party cannot be made respectable by taking the old timers—men who have fought the battles of the party in the days that tried men's souls—but dependence is put on men who have been Democrats, in itself a certificate of respectability. The old mossbacks may feel bad about it, but it's the truth. The facts are indisputable, the deductions plain.—Greensboro Record.

The man who started the hue and cry against the farmers, charging them with being responsible for the high cost of living, must have had either a most vivid and lurid imagination, or like the thief who cried "stop thief" to divert attention from himself, were seeking to turn the public mind from themselves. One has but to scan the local market quotations, in any community, and then compare these with the prices he pays for the same commodities, to be impressed with the ridiculousness of the charge. In Fredericksburg at this time the farmers are being offered certain prices for their butter, eggs, beef on the hoof, etc.; they must take these prices or carry their produce home, as they cannot or do not fix prices themselves. On the other hand, the consumer, if he buys from the middleman, must pay anywhere from 25 per cent. to 200 per cent. advance for any or all of these necessities, even in Fredericksburg, where conditions are far better than in most places. We do not know that even at these prices the middlemen are making inordinate profits, as it costs them so much to handle merchandise, but we want to point out the fact that the farmers are not responsible for the high prices which the people have to pay. —Fredericksburg Star.

According to a journal published by a life insurance company in New York no fewer than 12,500 persons committed suicide in this country last year. While this number is a slight decrease from the official record from 1908, it is appalling since the previous year was a record-breaker. The explanation for the great number of self-inflicted deaths in 1908 was the panic of 1907. The explanation for last year's great number simply appears to be that many persons were tired of living and ended the struggle. It has always been a moot question whether suicide is the act of a brave man or a coward. The man who takes his own life is undoubtedly a moral coward, and the only question that remains for discussion is his physical bravery. The analysis made by the insurance journal would seem to clear up this last remaining point. It is shown in the report that the larger number of suicides resorted to poison, while many employed asphyxiation. Poison is admittedly a coward's weapon. Asphyxiation is closely related to it, from the figures given by the insurance journal it would seem that the persons contemplating suicide, or a majority of them, hunt around for the easiest way of ending their lives. Not a great number, comparatively, use a revolver. A bullet, it would seem, hurts too much; and would-be suicides who are trying to escape the flings and arrows of outrageous fortune do not wan to inflict any more pain on themselves than they can help Few of them hang themselves or cut their throats or jump off roofs. They are not so desperate as to be indifferent to physical pain. Most of them are as cowardly physically as they are morally. They are quitters—and they can't come back.—Washington Post.

JUNIORS GATHER AT BEACH

Twentieth Annual State Convention Begins Tonight—Opening Session at Lumina—Senator Overman Arrives Today.

Practically every train to the city yesterday and last night had on board representative members of the Junior Order, United American Mechanics, who will hold their 20th annual State convention at Wrightsville Beach this week, beginning tonight and continuing through Friday.

The advance guard arrived Sunday evening. Scores of others arrived yesterday and the trains today are expected to be crowded. It is estimated that there will be at least 500 Juniors at the beach for the convention and many are accompanied by members of their families. Tarrymoore Hotel is headquarters of the convention.

The opening session will be held at Lumina, a pavilion especially adapted for such a large gathering. This meeting will be open to the public and will be in the nature of a formal welcome to the visitors. Hon. Wm. E. Springer, chairman of the joint committee on arrangements, will preside. The principal speaker of the evening will be Senator Lee S. Overman, of Salisbury, who has many friends in Wilmington and who will be delighted to hear him on this occasion. Chairman Springer received a telegram from Senator Overman yesterday afternoon stating that he would leave Salisbury last night and would reach Wilmington on the train from the North this morning. The distinguished visitor will be met at the union station by Chairman Springer and others and escorted to The Orton, where he will be entertained while in the city, going to the beach during the day at his pleasure.

The meeting tonight will begin at 8 o'clock. After the gathering has been called to order by Chairman Springer the Lumina Orchestra will render a selection, after which Rev. K. D. Holmes, pastor of Fifth Street Methodist Church, and a member of George Washington Council, No. 67, will offer prayer. Capt. Thos. D. Meares, clerk of the Board of Audit and Finance, will then be introduced and in behalf of the City of Wilmington and Wrightsville Beach will extend to the visitors a most cordial welcome. This pleasant duty was originally assigned to Mayor Walter G. MacRae, but as he left a few days ago for his vacation he asked Mayor Pro Tem. S. J. Ellis to secure a speaker for the occasion and Capt. Meares was selected. After a selection by the quartette, "Muster out" (Parks), the response will be made by L. T. Hartsell, Esq., of Concord. This will be followed by "Annie Laurie" Dudley Buck), by the quartette, after which William J. Bellamy, Esq., of Jeff Davis Council, No. 63, will be introduced and he will welcome the visitors in behalf of the local Juniors. Mr. Bellamy is not only a prominent Junior but a speaker of wide reputation. After a solo, "Tubalcane," by George Harriss, Mr. E. B. Lewis, of Kinston, will deliver the response. Mr. Lewis is another prominent member of the order and a most pleasing speaker. The quartette will sing, "Hush My Honey" (Parks), after which Woodus Kellum Esq., of Jeff Davis Council, No. 63 will introduce the speaker of the evening, Senator Lee S. Overman, who will have as his subject, "Relation of Junior Order to Immigration in North Carolina." At the conclusion of Senator Overman's address the quartette will sing, "I want to Go Down South Once More" (Parks), followed by impromptu talks by prominent Juniors. The meeting will close with the rendition of a selection by Lumino Orchestra.

The sessions of the convention proper will be held in the assembly hall of Tarrymoore Hotel, which has been tastefully decorated in the colors of the order. The convention will formally convene tomorrow morning at 9 o'clock with State Councilor W. Ben Godwin, of Elizabeth City, presiding. There will be two other sessions tomorrow, one beginning at 2:30 P. M. and the other at 8 P. M. There will be three sessions Thursday, morning, afternoon and evening, and probably one session Friday morning. Friday evening the visitors will be entertained by the Tidewater Power Company at an attractive souvenir dance at Lumina.

Among those who arrived Sunday evening were: Secretary Samuel F. Vance, Messrs. G. N. Hastings, O. O. Tesh, Geo. W. Blum, L. A. Oliver, O. W. Jones, J. A. Marshall, Winston Salem, and A. Wayland Cooke, Esq., Greensboro. Secretary Vance was busy yesterday assisting members of the local committee in welcoming the visitors and making the final arrangements for the convention.

The following are the committees that had in charge the arrangements for the convention:

Mr. Wm. E. Springer, general chairman; central committee, Messrs. S. P. Cowan, treasurer; H. W. Howell, John M. Enos, N. J. Williams, B. D. Hamilton, W. E. Yopp, E. C. Woodbury, H. F. Farrow, O. E. Merritt, B. F. Brittain, secretary; reception committee, Messrs. R. L. Weaver, O. E. Merritt, C. M. Branch, J. H. Williams, D. M. Beardsley, D. F. Kline, Henry Horne, John M. Enos, D. B. Hamilton, J. L. Anderson, W. L. Moore, J. H. Curtis, M. J. Hines, W. B. Register, Add. Hewlett; refreshment committee, Messrs. Geo. C. Simmons, J. H. Williams, J. W. Overby, John H. Beery, John E. Wood, Jos. W. Little, H. E. Grimsley, Geo. C. Jackson, L. Clayton Grant, J. W. Fleet. These committees have been constantly at work for some weeks and have everything in readiness for the convention.

Steamers Bound Here.

Three steamers bound to this port with fertilizer products are reported in the last issue of the Maritime Register as follows: The British steamers Hillbrook and Kildale from Montevideo and the German steamer Villareal from Hamburg. The first two sailed during the first part of August and are steamers of over 2,000 tons net register. The Villareal left Hamburg on the 9th of the month. They will probably begin arriving during the latter part of next week.

SUNDAY AT THE BEACHES

Hundreds of Visitors From Nearby Towns and Wilmingtonians Also Visit Resorts in Great Numbers—Big Day at Resorts.

Both Wrightsville and Carolina beaches were visited by large crowds Sunday. Not only did the townspeople flock to the resorts in great numbers but there was an unusually large crowd from nearby towns, the visitors taking advantage of the special Sunday excursion rate given by the A. C. L. on all of its lines entering this city. Three extra coaches were attached to the train from the North to accommodate the crowds from places between Wilmington and Goldsboro.

For this late in the season there are an unusually large number of regular Summer guests at Tarrymoore and Seashore Hotels, Wrightsville Beach, and there are also a large number of guests at the boarding houses. The number is increased by several hundred this week on account of the State convention of the Junior Order. It is believed that people from a distance will flock to the resorts for some weeks yet. It is estimated that there were at least 1,500 visitors at the beaches on Sunday, arriving on the morning Coast Line trains and returning in the afternoon and evening. Many of these went direct to Wrightsville Beach on special suburban trains while others went to Carolina Beach on the steamer Wilmington, which made its usual number of Sunday trips down the river. At both beaches there were a large number of persons in the surf. There were an unusually large number of persons for dinner and supper at Carolina Beach Hotel, which is now under the excellent management of Mr. H. C. Pearsall, an experienced and exceedingly clever hotel man.

It has been reported on the streets that the Tarrymoore Hotel Company contemplated the construction of a handsome steel pier out into the ocean for a considerable distance prior to the opening of the next season. Manager W. J. Moore, of the popular hostelry, was asked yesterday if there was any truth in the report. He stated that something had been said about it, but as yet nothing definite had been decided upon. He stated, however, that there was ample time before the beginning of the next season to take up the question and give the proposition full consideration.

The concert on the Seashore Hotel pier Sunday morning at 11 o'clock was attended by the usual large crowd, while the afternoon and evening concerts at Lumina were fully up to the high standard and greatly enjoyed by the large crowds.

"Judge" G. W. Bornemann and his glee club were at Carolina Beach Sunday afternoon and returned on the 7:30 o'clock boat. A number of selections were rendered on board the boat by the judge's song birds and it goes without saying that the efforts of the singers was greatly appreciated. The director has his trained musicians under absolute control at all times. He states that he has a number of engagements for his club this week.

SEARCH FOR HIGHWAYMEN.

Negro Held Up and Robbed and Money Drawer in Store Rifled.

Police officers are searching the city for three negro men who on Saturday night held up and robbed C. Tyson, colored, near Sixth and Campbell streets, and a short time later entered a store in the vicinity and at the point of a pistol held the proprietor at bay while the money drawer was rifled of its contents. The officers believe that they will be able to capture the highwaymen.

Tyson is said to live in the country and was on his way home when accosted by the highwaymen. It is stated that the negroes first asked him if he could change some money and when he replied in the negative they attacked him, tearing off nearly all of his clothing in their efforts to secure what money he had on his person. He was unable to cope with the three men and all the money he had, said to have been $8, was taken by the robbers, who, a few minutes later, entered a store in the neighborhood and proceeded to carry out their plans to rob the money drawer. One of the trio held the proprietor at bay with a revolver while another secured the contents of the money drawer. After securing the money they coolly left the store. The robberies were reported to the police during the night and efforts were at once put forth to capture the three negroes. While no arrests had been made yesterday afternoon and the police refuse absolutely to give out any information regarding the robberies, it is understood that they expect to capture the desperadoes.

Insurance Claim Paid.

Mr. Geo. C. Jackson, clerk of Live Oak Camp, No. 6, Woodmen of the World, yesterday deposited $3,000 in a local bank to the credit of the widow of Mr. C. M. Kelly, whose death occurred July 26th, this being the amount of the life insurance carried in the order by Mr. Kelly. The Camp will also erect a monument at the grave of the deceased member.

EARLY MORNING HOLD-UP.

Two Negroes Said to Have Attempted to Rob White Man.

A white man, a stranger in the city, giving his name as S. A. Jutsice, reported to the police early Sunday morning that while coming down Princess, between Fifth and Sixth streets, he was held up by two negro men who ordered him to give them his money and that when he ran from them he was fired at twice with a revolver. An officer returned with Justice to the scene of the hold-up, but the negroes had already fled, and a search of the neighborhood was in vain.

Mr. Justice stated to the police that while walking along Seventh street he was approached by two negroes, one of whom asked him to change a dollar. He replied that he had only 30 cents and proceeded on to Princess street and then down Princess toward Front. When nearing Fifth street he was again approached by the negroes and asked the same question which had been put to him a few minutes before. The negroes received the same reply, whereupon they directed him to hand them all the money he had on his person. The request was refused point blank. One of the negroes pointed a pistol at Mr. Justice, who started to play for time. The negro "broke" the pistol and Mr. Justice saw that it was unloaded and realized that his only chance of escape was while the negro was placing cartridges in the revolver. He darted off down Princess street, calling for the police as he moved swiftly along. The negro loaded the weapon in a jiffy and fired twice at Mr. Justice, but both bullets went wild. Mr. Justice ran on to the City Hall, where he reported the occurrence.

The rate to Lenoir and Edgemont and return is only $5 and half rates have been secured by stage line from Lenoir to Blowing Rock and Linville. Among those who will take advantage of the reduced rate is the following party: Messrs. F. W. Dick, Thomas H. Wright, H. deW. Rapalje, Raymond Hunt, C. S. Grainger, and Dr. Ralph B. Seem. The party will go to Linville. Mr. Rapalje expects to return Sunday, but some of the others will remain in the mountains for a couple of weeks.

CIGARETTE TAX.

Sheriff Cowan Says Dealers Must Comply With the Law.

Sheriff S. P. Cowan stated yesterday that he had been informed that a number of persons and firms in Wilmington were selling cigarettes without payment of the tax required by the State and that all must comply with the law. He had several of his deputies out yesterday securing evidence against the dealers. Warrants may be sworn out for some of these today unless they come across with the tax. Sheriff Cowan says that it is a State tax and those who fail to pay the same may be indicted, and, if found guilty, required to pay the tax and the costs of the action. The law also makes it compulsory that dealers show their license when requested to do so by a deputy sheriff or constable and failure to do so is cause for indictment. Should the person indicted produce the license after the warrant has been served he is liable for the costs in the action.

BEAUTIFUL SAPPHIRE COUNTRY.

Fairfield Inn, on Beautiful Lake, Attractive Mountain Resort.

Now that the season of the year has arrived when the tide of Summer tourist travel begins to set in towards the mountains, the beautiful Sapphire Country of Western North Carolina is claiming a share of attention as usual. Fairfield Inn, on Lake Fairfield, is a most delightful place of abode any many Wilmington friends of Mr. J. E. Wilkinson will be interested to know that he is connected with the resort this season and will be glad to welcome any of his friends from the seashore. It is especially pleasant in the Sapphire country during the early Fall as the foliage begins to turn in September and the place is even more beautiful than in Summer.

NEW FISHING SEASON.

Begins About First of September. More Fishermen This Year.

Fishermen on the various sounds are making preparations for the new season, which usually begins between the first and 15th of September, depending altogether upon when the mullets begin to run off the Carolina coast. MOISSANT AEROPLANE.

Made Two Ascensions Yesterday on Way to London Town.

London, Aug. 22.—John B. Moissant, the American aviator, was again baffled this morning in his attempt to complete the Paris-London flight with a passenger, which started so auspiciously last Tuesday evening. He ascended twice this morning in his endeavor to cover the comparatively short distance over which a spell seems to have been cast, separating him from London, but could make no headway, and in the second forced descent damaged his machine so seriously that he will be unable to resume the flight for 24 hours.

His first ascent was made from Upchurch, near Rainham, where he landed after a battle with the strong wind Saturday at 4:30 A. M. On the ground a dead calm prevailed and all conditions seemed favorable for the flight by the machine. After ascending above the trees the machine was caught in a tricky wind and although Moissant remained in the air 56 minutes, he could move only a very short distance. His supply of petrol then gave out.

After a delay of half an hour the air man again ascended against a 30-mile breeze, which he fought for the succeeding half hour, covering only four miles in the last 27 minutes.

Finally a heavy gust of wind caught the monoplane and flung it down bodily 100 feet, just missing one of the high hedges bordering the roadways. Moissant avoided it by an abrupt swerve and the machine landed in a field. The wheels used in starting were buckled, the rudder and propeller broken and parts of the frame work were smashed. Moissant and his mechanician, Fileux, narrowly escaped injury.

Moissant and his mechanician are now at Seven Oaks, about 20 miles from Upchurch, and an equal distance from London.

TEXAS COTTON.

Galveston Paper Publishes Report From State and Oklahoma.

Dallas, Texas, Aug. 22.—The Galveston-Dallas News will tomorrow publish reports on condition of the cotton crop from more than 700 correspondents in Texas and Oklahoma, which will show the condition in Texas August 17th as compared with the corresponding period of last year, to have been 102.9; in Oklahoma 130.6. Conditions in Texas at this time last year were bad. Along the northern border of the State, especially in the Panhandle, conditions are good but fall off to the south and west. The damage is due almost entirely to a period of drouth. Upon the whole maturity appears to be on a par with last year. In Oklahoma the conditions are almost uniformly good.

Keep Baby Healthy in Summer

It is easier to keep some children in health in winter than in summer. And yet it is very important that the child should be strong and well during the hot weather. In the first place, a very little ill is liable to develop into a large one in summer because of the germs in milk, water and many kinds of food. You should be especially careful not to allow your children to become irregular in their stools during the heated term. The best relief you can give it, and the surest permanent cure, is Dr. Caldwell's Syrup Pepsin, the guaranteed laxative-tonic. It is exactly suited to the needs of children because it is gentle and mild in action, absolutely pure and free from narcotics, pleasant to take, and yet does its work promptly and efficiently. Thousands of mothers keep it constantly in the house against emergencies, and as a bottle costs only 50 cents or $1.00, and can be conveniently obtained of any druggist, no family should be without it. If you are one who has never tried Dr. Caldwell's Syrup Pepsin and would like to do so before buying it in the regular way, you can obtain a FREE BOTTLE by sending your address to

COTTON CROP CONDITIONS

Memphis Commercial-Appeal's Review of Reports from South.

Memphis, Tenn., Aug. 21.—Summary of cotton crop condition were published by the Commercial Appeal today as follows:

Unfavorable reports come from Texas and Northern and Central Georgia. Elsewhere with local exceptions the crop is now in the best state of promise of the season. The August fruitage has been heavy and the plant is thrifty and growing. In Oklahoma with an average or late frost the largest crop within a number of years will be harvested.

No shedding is reported, except in the dry districts as above. The bolls on the plant are still young, and continued favorable weather is needed or their proper development, while the general lateness of the plant in the matter of growth makes a late frost very desirable. With such a frost assured the general crop prospect would be favorable.

All telegraphic reports up to Sunday night show that Texas had no general rain fall during the week, and that deterioration of the crop has been checked over a limited and scattered territory comprised mainly of the lower panhandle and northern and extreme western central Texas. The heavy movement in the south and southwest is the result of rapid and premature opening of bolls.

The crop is not learly matured.

Boll weevils have destroyed considerable cotton in Louisiana and Southern Mississippi, but elsewhere have not been an important factor in the crop.

Akron, Ohio, Aug. 22—A large crowd today attended the dedication of a monument to John Brown, in Perkins Park, once a part of Brown's farm. The ceremony was under the auspices of the German American Alliance of Ohio. Jasen Brown, 86 years old, of Akron, son of John Brown, attended the dedication.

FORESTS RAGING WITH FIRE DEMON

Continued From Page One.)

are eliciting the highest praise from residents of the burned area.

A westbound train of the Northern Pacific reached Spokane today after an exciting run through the flames. Every car was scorched. At Liberty Lake, a Summer resort, 18 miles from Spokane, several cottages have been burned.

The St. Joe and the St. Marie Valley is in the heart of the richest timber belt in Idaho and is swept by flames.

Already 100 homesteaders have been burned out. Five hundred men are fighting the blaze. St. Joe river steamboats are kept ready to take the people to safety.

Gould, 17 miles from Helena, is entirely surrounded by fires. Wilburns just over the mountain from Gould, is also threatened, and the inhabitants are leaving.

A correspondent gives the following account of the journey of a Northern Pacific special relief train:

"All the way from Mullan to St. Regis the Northern Pacific ran through walls of burning timbers. The relief train got as far as Borax and was compelled to turn back on account of burning bridges.

"Getting back to Saltese, it was found that the bridges east had been burned. It was impossible to move either way. The train was compelled to stay at Saltese and that fact saved the town which soon began to burn. There were 150 men on the train. Bucket brigades were formed and men were set to work with shovels. The train was just half an hour ahead of the fire and only six small houses on the west end of the town were burned."

At the bullion mine eight men were burned to death and two were probably fatally burned.

Alarming Reports to Taft.

Beverly, Mass., Aug. 22.—President Taft has received alarming reports as to the situation in the forest fire districts of the West and has directed Gen. Leonard Wood, chief of staff of the United States army, to render every assistance in his power. In addition the President tonight sent the following telegrams to Governors Brady, of Idaho; Norros, Montana, and Hay, of Washington:

"General Wood has sent 30 companies of Federal troops in addition to pack transportation and extra medical officers to the forest fires districts and I have directed him to do everything in his power to co-operate in saving life and fighting fire. Will you telegraph me what the exact situation is. Do you intend to place State troops in the threatened towns to do police work? The reports which reach me are most serious and I desire exact information.

(Signed) "WILLIAM H. TAFT."

The President received the following response from the Governor of Idaho:

Boise, Idaho, Augguost 22nd.

To the President, Beverly:—

Your telegram just received. Have been wiring all day for particulars. Understand wires down into Wallace. Associated Press dispatches approximately correct. Business section and portion of residence section Wallace have been saved. Fire reported to be under comparative control until wind changes. Will give you benefit of any information I am able to get. I thank you sincerely for aid you have sent and are sending.

JAMES BRADY, Governor.

The entire situation as to Federal aid in the fire districts was put up to the President this afternoon by the War Department and his telegrams to the governors followed.

Incendiary Forest Fires.

Washington, Aug. 22.—Positive evidence that many of the forest fires in Oregon are of incendiary origin has been discovered by government agents, according to a telegrom received at the offices of the forest service here today, from Associate District Forester Cecil of Portland.

Mr. Cecil says in his dispatch that there is no doubt that the fires in the crater National Forest at Medford resulted from incendiarism and that new fires are being set constantly. He reports that he has started 25 men on scout duty in an effort to catch the culprits.

The serious forest fire situation was taken up today at a conference at the War Department between Associate Forester Potter, of the Forestry Service, Major General Leonard Wood, chief of staff of the army, who returned from an inspection at West Point to superintend the relief from the army standpoint, and Adjutant General Ainsworth. The immediate result of the conference was the ordering into service of the last five companies available in the stricken regions for fire fighting duty, and pack trains, carrying medical supplies and army surgeons to the immediate relief of the sufferers.

UP IN THE FIFTH

Charlotte Chronicle Thinks Fine Outlook For Maj. Stedman.

Charlotte, N. C., Aug. 22.—The Chronicle this afternoon says editorially:

The chances of Major Charles M. Stedman for election to Congress from the fifth district were materially improved as a result of the Republican convention held in Greensboro, Saturday, when Mr. D. H. Blair, of Winston-Salem, was nominated to succeed Congressman Morehead. It looks to us as if the Republicans, in giving Morehead the chairmanship and retiring him from the congressional field, have sacrificed one seat in Congress. Morehead could have had the nomination if he had said the word, but his absolute refusal made it necessary to settle on another man, and this was finally done after much caucusing. There are two Blairs in Winston-Salem—brothers. One is D. H., the nominee. The other is W. A. The latter is vice president of the Wachovia Loan & Trust Company, and a man of undoubted popularity. He was urged to take the nomination, but he could not be budged. D. H. is a school teacher and had the distinction of capturing the appointment of census superisor after it had been bestowed upon Professor Glasson. It happens that Professor Glasson is a strong man and has many friends in the district who will not be overenthusiastic in their support of Mr. Blair. Some of them may not be able to resist this opportunity to knife the nominee. This is one thing that is going to operate against Mr. Blair. Another is, that while he is Morehead's choice, and represents that gentleman's principles, Mr. Morehead, will find it difficult to endow him with the Morehead prestige and strength. There can be no question about the fact that he is a fine gentleman. As to whether he is good congressional timber is another matter.

POURED ON GASOLINE.

Then Macon Man Saw His Wife Burn To Death.

Macon, Ga., Aug. 21.—Mrs. Alma Walker, 25 years of age, lies dead at her home seven miles from here fearfully burned, while her husband, William Walker, 40 years old, is in jail here charged with having poured gasoline on her from behind while she was touching a match to a fire in the kitchen stove at 10:30 o'clock this morning.

According to the evidence of a negro woman, who helped to attend the victim before her death, the dying woman repeatedly raised up and cried, pointing to her husband, that "Will did it—he did it."

The coroner was summoned and accompanied by two deputies he arrived at the scene of the tragedy early in the afternoon. Walker submitted to arrest peacefully, declaring that the woman did it herself accidentally, while stimulating the fire with kerosene.

According to neighbors, Walker, as soon as his wife burst into flames, rushed out to get help, leaving her screaming on the floor.

Walker was formerly a butcher in Macon, but has been farming this year. He and his wife were married in Butts county three years ago. Her maiden name was Alma Johnson. He is about 30. They had no children. The coroner's inquest holds him charged with murder.

VATICAN SURPRISED.

Protest Against Spanish Government at Utterances.

Rome, Aug. 22.—Surprise is expressed at the Vatican at the protest of the Spanish government against what the Spanish government calls violent sermons delivered by Roman Catholic priests in Spain against Spain. The protest was discussed by Marquis de Gonzales, secretary of the Spanish embassy to the Vatican, in charge of the embassy. It terms the sermons "insulting to the Spanish ministers and inflaming the passions of the people."

At the Vatican, it is declared that the Spanish clergy is behaving admirably during the crisis and is simply calling the attention of the faithful to the attempts by the Spanish government against the rights and liberties of the church.

S. S. S. PERMANENTLY HEALS SORES & ULCERS

Old sores remain open and chronic ulcers refuse to heal because they are kept constantly irritated and infected by impurities in the blood. This impurity of the circulation comes from various causes. A long spell of debilitating sickness, which breeds disease germs in the system, the retention of refuse matters of the body because of a sluggish condition of the eliminative members, a continued malarial state of health, inherited bad blood, etc., are usually responsible. But whatever the cause of the infected circulation, the sore or ulcer CANNOT heal until the blood is purified. S. S. S. heals sores and ulcers in the very simplest way. It just goes into the circulation and removes the impurities and polluted matter which are the means of keeping the sore open; then the sore is bound to heal. S. S. S. is the finest of all blood purifiers, and not only does it cleanse the circulation but it adds the necessary healing qualities to the blood, and in this way assists nature to quickly cure sores and ulcers. Salves, washes, lotions, etc., can do no permanent good toward healing an old sore because such treatment does not reach the blood. These external applications may be soothing and cleansing, but the healing must begin at the bottom, and this is just what S. S. S. does by first purifying the blood, and then furnishing nourishment and health to all the flesh tissues. Book on Sores and Ulcers free to all who write and request it.

FURTHER ACTIVITY IN COTTON

Market Was More or Less Nervous and Irregular Throughout Day. Closed Steady at Small Advance—Conditions.

New York, Aug. 22.—The cotton market was more or less nervous and irregular today, reacting after a sharp early advance, but later recovery and closing steady at a net advance of 5 to 12 points.

The opening was steady at an advance of 21 points on August, owing to a renewal of Saturday's covering movement, while later months were 8 to 12 points higher in sympathy with old crop strength, and in response to better cables than expected. There was practically no August for sale at the start, and that position quickly advanced to 16.53, a new high record for the season, and a net gain of about 26 points, on purchases of a few hundred bales. But the absence of any aggressive support from the bull leaders and the fact that the new crop was rather slow to follow the advance, seemed reassuring to the remaining short interest and when the demand was withdrawn, August eased off under scattering liquidation. With some of the private wires from New Orleans claiming that the showers of last week had helped the Texas crop, new crop positions weakened when August turned easier and sold off to about the closing prices of last week. August meanwhile broke from 16.53 to 16.20, or to a net loss of 7 points, but at this level there was a renewal of the demand from August shorts, while following the detailed Texas report show a return of dry, hot weather in the Southwest, the new crop also rallied, and in the late trading prices worked up to a net gain of from 8 to 13 points. The close was only a point or two off from the best of active months under realizing. Southern spot markets officially reported early were unchanged to 1-8c higher.

Temperatures were reported from 100 to 107 degrees at a large number of Texas stations today, and the western belt forecast was for generally fair weather.

Receipts of cotton at the ports today 10,702 bales against 7,346 last week and 4,299 last year; for the week 40,000 bales against 40,796 last week and 36,388 last year. Today's receipts at Houston 10,326 bales against 6,657 last year, and at Galveston 8,696 bales against 3,909 last year.

Spot closed quiet. Middling uplands 16.40; middling gulf 16.65; sales 21,344 bales.

STOCKS CONTINUE DOWNWARD

Market Was Dull and Exceedingly Narrow Yesterday—Weakness Shown in Speculative Leaders—Grain Market Lower.

New York, Aug. 22.—Stocks dribbled slowly but surely down today on a very light volume of business. The market was dull and exceedingly narrow throughout and the pressure upon the list apparently had its origin in the operations of the short interest which was inclined to take renewed courage from the reactionary tendency noted in the latter part of the previous week.

Weakness was again most conspicuous in the speculative leaders, the Harrimans, Reading, St. Paul, U. S. Steel, Northern Pacific, Amalgamated Copper and American Smelting all declining from one to three points on very light offerings.

The political situation which has been the foremost factor recently showed no change today, although there was general disposition to await the result of Col. Roosevelt's coming public utterances, the first of which is to be delivered at Utica tomorrow.

Grain markets were lower, but foreign buying of August Cotton resulted in smart advances, for that option. London's markets moved with much of last week's irregularity, with weakness in the copper stocks and further distrust of conditions in the raw rubber trade. Of the $2,500,000 South African gold received in London today, Germany took about forty per cent. supposedly for Russia, while the continent and India secured small allotments. A further advance in foreign exchange here practically precluded all possibility of any demand for the metal from this centre.

Bonds were heavy; total sales par value aggregating $1,155,000 United States government 3s advanced 1-8 per cent. on call. Total sales for the day 480,400 shares.

DULL ON COTTON MARKET.

No New Features Yesterday and Trading is at Low Ebb.

(Special Star Telegram.)

New York, Aug. 22.—Trading is at a low ebb with an entire absence of any new feature. The market is largely local with unimportant changes abroad.

For two days or more Texas has had no rain and temperature there continuess high, but this prolonged drought fails to broaden the market, tending apparently to cause a deadlock in prices at about 13 1-2 cents. The shadow of the approaching large movement is over prices and buyers are deterred thereby, as also by the many promising crop reports from the Atlantic States. The Southwestern growers seem eager to market at prevailing prices. Liverpool faces the new crop at about 60 points above last year and spots 164 higher. The market here responds only feebly to bull support.

SENATOR WARNER STEPS DOWN.

Health Prevents Him From Seeking Re-Election to U. S. Senate.

Washington, Aug. 22.—Senator William Warner, of Missouri, announced tonight that he would not be a candidate for re-election to the United States Senate. The announcement was made in a formal statement addressed to the "Republicans of Missouri." It follows:

"I announce I shall not be a candidate for re-election to the Senate of the United States. My health will not permit. The making of this announcement is to me a matter of deep regret because I feel it will be disappointing to my friends, and that more loyal and disinterested friends, no man ever had. I make no attempt to convey to them my heartfelt thanks for the consideration shown me in the past, for such an attempt would but reveal the poverty of words at my command."

The Senator is in his 71st year and for several months has not been in good health. The strain of the tariff session affected him seriously and the heavy work of the session recently ended did not tend to improve his condition. His term expires March 3rd next.

CHILLY WAVE COMING.

Weather Bureau Predicts Drop in Temperature This Week.

Washington, Aug. 21.—Chilly weather is on its way, according to the general forecast for the coming week, issued by Prof. Willis L. Moore, chief of the Weather Bureau.

The chilly wave will begin its sweep across the country the middle of the week, starting from the northwestern States and reaching the Atlantic coast by Friday or Saturday. Its appearance will be rendered the more disagreeable by reason of the fact that it will be preceded by moderately warm weather, so that the drop in the temperature will be the more severely felt.

As a result of the sudden change there will be almost continuous showers in the southeastern States.

During last week temperatures slightly below the normal ruled throughout the country and there were light frosts in the extreme northwest.

ROBBERY AT GARLAND.

Coast Line Depot Entered and Sum of Money and Bicycle Stolen.

(Special Star Correspondence.)

Garland, N. C., Aug. 22.—A daring robbery was committed at Garland on the A. C. L. warehouse and took $20 Saturday night. Some one entered from the trunk of Mr. A. C. Kilpatrick, agent at this place. The robber also secured some money from a drawer in the office of the building and a bicycle from the freight room. In his haste the thief missed $100 which was also in the trunk. He made his escape on the bicycle. It is now understood that the thief went to Wilmington Sunday night. Every effort will be made for his capture.

The messages from the merchants are always interesting—and usually affect the "state of your purse."

AMERICANS HELD IN CUBA.

Explanation Requested of Secretary of State—Serious Charges.

Havana, Aug. 22.—John B. Jackson, the American Minister to Cuba, returned here tonight from the Isle of Pines and visited Manuel Sanguily, the Secretary of State, requesting an explanation of the arrest Sunday of eight Amelcans in the Isle of Pines on a charge of threatened homicide and arson. Mr. Jackson was informed by Senor Sanguily that orders already had been issued to release the prisoners in bail and with this statement the incident apparently was diplomatically closed. It is reported, however, that A. W. Gardner and the other Americans, who were arrested, are determined to take action against the Cuban government for false arrest, contending that the accusations against them had been dismissed by a competent authority last May.

The latest reports here from the Isle of Pines say that complete tranquility has been restored there.

Washington, Aug. 22.—A dispatch was received at the State Department today from five of the American citizens incarcerated at Ueeva Gerona, Isle of Pines, protesting against their imprisonment and asking for an investigation by the American government.

The State Department asked the American legation at Havana to report on the incident. In the absence of any communication from the American officials in Cuba, the State Department will not press the matter upon the Cuban government, it is understood, unless justified by further information.

Tonight the Department made public the names of the Americans under arrest. The names signed to the appeal for assistance were "Giltner, Gardener, Ramsdell, Clark and Nelson." The first names were not given.

SHOOT AT CAMP PERRY.

Infantry Rifle Team Had Feature Day. The Events.

Camp Perry, O., Aug. 22.—The United States Infantry Rifle team which took the lead this morning on the first 200 yard stage of the National match, increased it by three points this afternoon on the 600 yard targets. It has scored 1,095.

Service teams are second and third. The Cavalry and Navy; then comes the leader of the militia teams, Massachusetts, which took third honors last year; and crowding it are the Annapolis cadets. New York, thrice winner of the National trophy, ranks sixth by reason of her 600 yard world's record score of 569. On the basis of the classification of 1909, the leaders tonight in Class B are:

District of Columbia, 11th, 1,067; Texas, 12th, 1,065; Oklahoma, 13th, 1,065, and New Jersey, 14th, 1,063

In class C the high four are: Kansas, 23rd, 1,042; Arizona, 27th, 1,033; North Dakota, 28th, 1,031, and Florida, 32nd, 1,012.

SPANIARDS LOSE ALL.

American Took Honors in Races Off Massachusetts Coast.

Marblehead, Mass., Aug. 22.—The Spanish yachtsmen closed their career in American waters by losing another race to the Americans today and tonight they saw the Governor Draper cup, the second important trophy of the international race, awarded to Capt. C. H. W. Foster, owner of the Beaver. The owners of the visiting Sonder yachts will go on board the Mayflower on Wednesday to join in acclaiming the Harpoon the principal winner of the series when President Taft presents the cup bearing his name to Capt. C. F. Adams, second.

The final race today was between two American and two Spanish boats, the Mosquito II not participating.

The Beaver won after an interesting contest with the Cima, which was only 13 seconds behind at the finish.

The Spanish boat Chonta and Papoose were far astern when the American boats crossed the line.

TAFT AND TEDDY FELLOW WORKERS

(Continued From Page One.)

already expressed to you that the whole situation in New York may be saved without humiliation to any one and with victory for the party by a full conference with Mr. Roosevelt and reasonable concessions with reference to platform and candidates.

"The thing of all others that ought to be avoided is a controversy in the convention. I am told by Mr. Griscom that such a conference with Mr. Roosevelt might conveniently be had and would be welcomed by him before the State committee meets on Tuesday. Hope you will be able to report satisfactory solution when you come on Wednesday.

"'WILLIAM H. TAFT.'

"On the afternoon of Monday, August 15th, Mr. Sherman telephoned me from New York, and for the first time apprised me of the fact that there was a proposal to oppose Mr. Roosevelt for the temporary chairmanship and that with Mr. Root's name. No other name than Mr. Root's was mentioned. I protested against the idea of a contest on such a matter peremptorily declined to be drawn into a fight against Mr. Roosevelt and again renewed my urgent advice that there be prompt and full personal conference with Mr. Roosevelt before the committee meeting, with a view to securing harmony and victory for the party.

"Mr. Sherman called upon me here on the 17th instant, to meet an engagement of a week's standing made with him and Mr. Loudenslager to discuss the Congressional campaign text book. Mr. Loudenslager was prevented from attending by an illness. During the conference with Mr. Sherman I told him that I deplored the result of the meeting of the New York State committee, but because unless the break was repaired, it meant division between New York Republicans and probably defeat. Upon leaving me Mr. Sherman agreed to go into a conference with Mr. Roosevelt provided he were invited to do so, with a view to adjusting the situation if possible even at that late date. Mr. Nicholas Longworth was present and said he would send a telegram to bring about a conference. What the result has been I don't know.

"Finally, in your telegram received this morning you state that efforts have been made to create the impression that I favor a particular candidate for election as State chairman. This is absolutely untrue. I have expressed no opinion on the subject since an effort was made last Winter by the New York Congressional delegation to secure Mr. Woodruff's retirement, which failed.

"I am very sorry indeed, to observe columns of unfounded assertions in the newspapers concerning my attitude in respect to the New York situation. You know, however, as well as other New York leaders that whenever my advice or assistance in reaching a satisfactory adjustment of the difficulties arising has been sought, I have urged the necessity for the fullest conference with Mr. Roosevelt by the members of the organization, and with due deference to honest difference of opinion, have expressed the view which I still entertain that the solution of the direct primary issue can be found in provisions similar to those of the Cobb bill as amended in accord with the memorial signed by Mr. Seth Low, Mr. Joseph Choate and other prominent Republicans of New York City. "Sincerely yours,

"WILLIAM H. TAFT."

In commenting on President Taft's letter and the situation which it discloses, Mr. Griscom gave out the following statement:

"The methods used to accomplish the defeat of Mr. Roosevelt when his name was before the State committee are now clear to the public and may be judged by the public.

"Those personally acquainted with Mr. Taft's views were, of course, never in doubt that his advice had been ignored and that his attitude was misrepresented in order that those who misrepresented him might appear as the defenders of his administration.

"I have not the slightest doubt that the action of the State committee will be reversed and that Mr. Roosevelt, if his engagements will permit him to accept, will act as temporary chairman of the convention, making the keynote speech. As president of the New York Republican County Committee, I shall actively co-operate with Republicans throughout the State who believe it in the interests of the party that this result be brought about.

"Mr. Taft's reply to my telegram discloses that the reports, industriously circulated, of a supposed conflict between the President and the ex-President on New York State matters are baseless.

"The way is now for the Republican party in this State to take steps which will warrant and secure success at the polls in November. It is evident that some of the so-called "old guard" are not seeking Republican success at the coming election; they wish to perpetuate their control of the Republican organization at any cost to the party.

"The defeat which their plans invited they very willingly would have unloaded upon shoulders of President Taft by making it appear that he failed to endorse the policies of Governor Hughes and Mr. Roosevelt in this State.

"The alliance of some of the 'old guard' leaders with Tammany Hall in the last two Legislatures was a disgrace and should be repudiated by the party.

"Substantially all the Republican primaries are still to be held throughout the State. There can be no misunderstanding of the position taken by President Taft, ex-President Roosevelt and Governor Hughes for progressive leadership in the party and clean government. Opposed are Messrs. Barnes, Woodruff, Aldridge, Ward and their associates. The voters in the primaries will have an oportunity of making their choice."

Statement Pleased Roosevelt.

Oyster, Bay, N. Y., Aug. 22.—Col. Roosevelt, after reading with attention the full text of President Taft's letter issued the following formal statement:

"I am very glad to see President Taft's statement and am pleased with it.

"Before the meeting of the State committee, I had repeatedly expressed to various leaders, not merely my willingness, but my desire to see them. Since the meeting I have not thought that there was any particular object in meeting them as owing to their action the situation had become such as to admit of compromise and I had nothing to add to what I had already said. I may add that I have not changed my mind now

"My position is perfectly definite and I have nothing to change in it. I had never desired the chairmanship, and consented to have my name considered on condition only that, in platform and candidate alike, the party should endeavor to achieve success in the only way worth trying. That is, by deserving, my making it evident that the Republican party of the State of New York intends in good faith to save the interests of all the people of the State.

"I cannot speak definitely at the moment of my whole plans, because I do not know how far the situation will be changed by the President's letter and so I can say nothing more definite tonight."

Harmony in the Ranks.

Beverly, Mass., Aug. 22.—A visit to President Taft from Representative W. W. Cocks, of the Oyster Bay district in Congress, and one of Col. Roosevelt's closest friends and advisers, came as a forerunner in Beverly today to what transpired in New York and Oyster Bay tonight. Mr. Cocks immediately upon his arrival indicated that a better understanding was soon to be had and declared that without equivocation that there would be no break between the President and Col. Roosevelt. Mr. Cocks said that he did not come as an emissary from the Colonel and that his visit here was incidental to a trip to New Hampshire to see some relatives. President Taft said that his talk with Mr. Cocks had been most satisfactory. He rather significantly called attention to the fact that Mr. Cocks, being a Quaker, was essentially a man of peace. Mr. Taft at no time has felt called upon to answer anonymous, or veiled attacks. When Mr. Griscom telegraphed him a definite statement of what had transpired in the New York State committee, Mr. Taft then decided to write a letter.

The President's letter in many of the details given throws an interesting light upon a number of recent events in Beverly. Probably the most interesting of these was the interview given out by Vice President Sherman immediately following his talk with President Taft last Wednesday. On that occasion, it now transpires, the President told Mr. Sherman that he deplored the action of the State committee in voting down Mr. Roosevelt and that he wanted him to see Mr. Roosevelt and try to arrange an agreement.

Mr. Sherman, when he emerged from the Summer White House, stated in the most positive manner that he had no intention withdrawing as temporary chairman and that he did not think a movement to overturn the action of the State committee in the convention would be successful.

There is much speculation here tonight as to what the future relations between the President and the Vice President are to be. That a sure enough break has come out of the New York situation, but that it involves Mr. Taft and Mr. Sherman, rather than Mr. Taft and Col. Roosevelt, is the general opinion. There is little doubt here that Mr. Taft and Col. Roosevelt working harmoniously and militantly in New York State will have matters entirely their own way so far as the Republican party is concerned.

Oyster Bay, N. Y., Aug. 22.—On the eve of his departure for the West Col. Roosevelt spent a day not the least eventful of those that have crowded upon him since his return to politics. Overshadowing everything else was the full text of President Taft's letter not received here until tonight, but the Colonel had been given earlier intimation of what he might expect.

Representative Nicholas Longworth, his son-in-law, arrived at Sagamore Hill about noon and spent the afternoon in earnest talk. Their interview had barely ended when the telephone bell tinkled and Collector Loeb called from New York to acquaint his old chief with the contents of the President's letter. The Colonel was greatly pleased to hear that "Sherman, Barnes, Woodruff, Aldrich and Co.," had been repudiated.

When asked if Mr. Sherman had carried out his agreement with President Taft to confer with Mr. Roosevelt, or if he had been invited to do so, the Colonel replied that he received a written request for such a conference dated before the meeting of the State committee but not at hand until after the meeting.

He had replied to Mr. Sherman's letter that, in view of the action of the committee, a letter conference seemed unnecessary.

When President Taft's statement that no other name than Senator Root's had been mentioned to him as a possible candidate in opposition was called to the Colonel's attention he was asked if he had ever heard Senator Root's name in the connection before.

"No," he answered with emphasis and went on with the letter.

Representative Longworth, he said, had endeavored, as he promised the President to bring about a conference with Mr. Sherman. The Colonel has replied to him, as he had to Mr. Sherman himself, that it was too late.

AT REELFOOT LAKE.

Tragedy Near Scene of Night Rider Excitement Some Time Ago.

Nashville, Tenn., Aug. 22.—An Obion, Tenn., dispatch says: On the ground made famous by the Reelfoot lake night rider troubles, James Keesucker shot and killed one man late Saturday afternoon and wounded his brother and a woman, at Shaw's Park, in Obion county.

The dead man was Martin Leonard; the wounded are Mrs. Pitts and Will Keesucker. James Keesucker made his escape.

Shaw's Park is an open space of ground on Reelfoot Lake, about a quarter of a mile from Samburg, Tenn. a town of about 50 people. During the night-rider troubles Samburg was said to be the hotbed of the organization.

A party of people was in the park about 5 o'clock in the afternoon when James Keesucker drew a revolver, it is said, and shot Martin Leonard. Leonard dropped dead in his tracks and Keesucker then turned his weapon on Mrs. Pitts, and his brother, Will Keesucker. There had been long bad feeling between the Keesuckers and Leonards.
